In particular, these statements include, without limitation, statements about our future operating or financial performance, market opportunity, growth strategy, competition, expected activities in completed and future acquisitions, including statements about the impact of our recently completed acquisition (the WellCare Acquisition) of WellCare Health Plans, Inc. (WellCare), other recent and future acquisitions, investments and the adequacy of our available cash resources. By their nature, forward-looking statements involve known and unknown risks and uncertainties and are subject to change because they relate to events and depend on circumstances that will occur in the future, including economic, regulatory, competitive and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions. Except as may be otherwise required by law, we undertake no obligation to update or revise the forward-looking statements included in this press release, whether as a result of new information, future events or otherwise, after the date hereof. You should not place undue reliance on any forward-looking statements, as actual results may differ materially from projections, estimates, or other forward-looking statements due to a variety of important factors, variables and events including but not limited to: the impact of COVID-19 on global markets, economic conditions, the healthcare industry and our results of operations, which is unknown, and the response by governments and other third parties; uncertainty as to our expected financial performance during the period of integration of the WellCare Acquisition; the possibility that the expected synergies and value creation from the WellCare Acquisition will not be realized, or will not be realized within the expected time period; the risk that unexpected costs will be incurred in connection with the integration of the WellCare Acquisition or that the integration of WellCare will be more difficult or time consuming than expected; unexpected costs, charges or expenses resulting from the WellCare Acquisition; the inability to retain key personnel; disruption from the integration of the WellCare Acquisition, including potential adverse reactions or changes to business relationships with customers, employees, suppliers or regulators, making it more difficult to maintain business and operational relationships; the risk that we may not be able to effectively manage our expanded operations; our ability to accurately predict and effectively manage health benefits and other operating expenses and reserves, including fluctuations in medical utilization rates due to the impact of COVID-19;
